About Landmark Infrastructure Partners LP

The Partnership owns and manages a portfolio of real property interests and infrastructure assets that the Partnership leases to companies in the wireless communication, digital infrastructure, outdoor advertising and renewable power generation industries.

Non-GAAP Financial Measures

FFO, is a non-GAAP financial measure of operating performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trust ("NAREIT"). FFO represents net income (loss) excluding real estate related depreciation and amortization expense, real estate related impairment charges, gains (or losses) on real estate transactions, adjustments for unconsolidated joint venture, and distributions to preferred unitholders and noncontrolling interests.

FFO is generally considered by industry analysts to be the most appropriate measure of performance of real estate companies. FFO does not necessarily represent cash provided by operating activities in accordance with GAAP and should not be considered an alternative to net earnings as an indication of the Partnership's performance or to cash flow as a measure of liquidity or ability to make distributions. Management considers FFO an appropriate measure of performance of an equity REIT because it primarily excludes the assumption that the value of the real estate assets diminishes predictably over time, and because industry analysts have accepted it as a performance measure. The Partnership's computation of FFO may differ from the methodology for calculating FFO used by other equity REITs, and therefore, may not be comparable to such other REITs.

Adjusted Funds from Operations ("AFFO") is a non-GAAP financial measure of operating performance used by many companies in the REIT industry. AFFO adjusts FFO for certain non-cash items that reduce or increase net income in accordance with GAAP. AFFO should not be considered an alternative to net earnings, as an indication of the Partnership's

performance or to cash flow as a measure of liquidity or ability to make distributions. Management considers AFFO a useful supplemental measure of the Partnership's performance. The Partnership's computation of AFFO may differ from the methodology for calculating AFFO used by other equity REITs, and therefore, may not be comparable to such other REITs. We calculate AFFO by starting with FFO and adjusting for general and administrative expense reimbursement, acquisition-related expenses, unrealized gain (loss) on derivatives, straight line rent adjustments, unit-based compensation, amortization of deferred loan costs and discount on secured notes, deferred income tax expense, amortization of above and below market rents, loss on early extinguishment of debt, repayments of receivables, adjustments for investment in unconsolidated joint venture, adjustments for drop-down assets and foreign currency transaction gain (loss). The GAAP measure most directly comparable to FFO and AFFO is net income.

We define EBITDA as net income before interest expense, income taxes, depreciation and amortization, and we define Adjusted EBITDA as EBITDA before unrealized and realized gain or loss on derivatives, loss on early extinguishment of debt, gain or loss on sale of real property interests, straight line rent adjustments, amortization of above and below market rents, impairments, acquisition-related expenses, unit-based compensation, repayments of investments in receivables, foreign currency transaction gain (loss), adjustments for investment in unconsolidated joint venture and the capital contribution to fund our general and administrative expense reimbursement. We believe that to understand our performance further, EBITDA and Adjusted EBITDA should be compared with our reported net income (loss) and net cash provided by operating activities in accordance with GAAP, as presented in our consolidated financial statements.

EBITDA and Adjusted EBITDA are non-GAAP supplemental financial measures that management and external users of our financial statements, such as industry analysts, investors, lenders and rating agencies, may use to assess:

- our operating performance as compared to other publicly traded limited partnerships, without regard to historical cost basis or, in the case of Adjusted EBITDA, financing methods;
- the ability of our business to generate sufficient cash to support our decision to make distributions to our unitholders;
- our ability to incur and service debt and fund capital expenditures; and
- the viability of acquisitions and the returns on investment of various investment opportunities.

We believe that the presentation of EBITDA and Adjusted EBITDA provides information useful to investors in assessing our financial condition and results of operations. The GAAP measures most directly comparable to EBITDA and Adjusted EBITDA are net income (loss) and net cash provided by operating activities. EBITDA and Adjusted EBITDA should not be considered as an alternative to GAAP net income (loss), net cash provided by operating activities or any other measure of financial performance or liquidity presented in accordance with GAAP. Each of EBITDA and Adjusted EBITDA has important limitations as analytical tools because they exclude some, but not all, items that affect net income (loss) and net cash provided by operating activities, and these measures may vary from those of other companies. You should not consider EBITDA and Adjusted EBITDA in isolation or as a substitute for analysis of our results as reported under GAAP. As a result, because EBITDA and Adjusted EBITDA may be defined differently by other companies in our industry, EBITDA and Adjusted EBITDA as presented below may not be comparable to similarly titled measures of other companies, thereby diminishing their utility. For a reconciliation of EBITDA and Adjusted EBITDA to the most comparable financial measures calculated and presented in accordance with GAAP, please see the "Reconciliation of EBITDA and Adjusted EBITDA" table below.

- (1) "Available Tenant Sites" means the number of individual sites that could be leased. For example, if we have an easement on a single rooftop, on which three different tenants can lease space from us, this would be counted as three "tenant sites," and all three tenant sites would be at a single infrastructure location with the same address.
- (2) Assumes the exercise of all remaining renewal options of tenant leases. Assuming no exercise of renewal options, the average remaining lease terms for our wireless communication, digital infrastructure, outdoor advertising, renewable power generation and total portfolio as of December 31, 2020 were 2.8, 9.9, 7.0, 16.8 and 4.7 years, respectively.
- (3) Represents the number of leased tenant sites divided by the number of available tenant sites.
- (4) Occupancy and average monthly effective rent per tenant site are shown only on an aggregate portfolio basis by industry.
- (5) Represents total monthly revenue excluding the impact of amortization of above and below market lease intangibles divided by the number of leased tenant sites.
- (6) Represents GAAP rental revenue recognized under existing tenant leases for the three months ended December 31, 2020. Excludes interest income on receivables.
- (7) Fee simple ownership and perpetual easements are shown as having a term of 99 years for purposes of calculating the average remaining term.
- (8) Reflects "springing lease agreements" whereby the cancellation or nonrenewal of a tenant lease entitles us to enter into a new ground lease with the property owner (up to the full property interest term) and a replacement tenant lease. The remaining lease assignment term is, therefore, equal to or longer than the remaining lease term. Also represents properties for which the "springing lease" feature has been exercised and has been replaced by a lease for the remaining lease term.

(2) Under the omnibus agreement with Landmark, we agreed to reimburse Landmark for expenses related to certain general and administrative services that Landmark will provide to us in support of our business, subject to a quarterly cap equal to 3% of our revenue during the current calendar quarter. This cap on expenses will last until the earlier to occur of: (i) the date on which our revenue for the immediately preceding four consecutive fiscal quarters exceeded \$120 million and (ii) November 19, 2021. The full amount of general and administrative expenses incurred will be reflected in our income statements, and to the extent such general and administrative expenses exceed the cap amount, the amount of such excess will be reimbursed by Landmark and reflected in our financial statements as a capital contribution from Landmark rather than as a reduction of our general and administrative expenses, except for expenses that would otherwise be allocated to us, which are not included in our general and administrative expenses.
